

How to Access Mission Maps, Part 1: Join the Event

We are using SARTopo to manage maps and assignments for this mission. To view the maps, access your assignment, and record tracks, you will use your smartphone.

1. Install the CalTopo app from the Play Store or App Store.

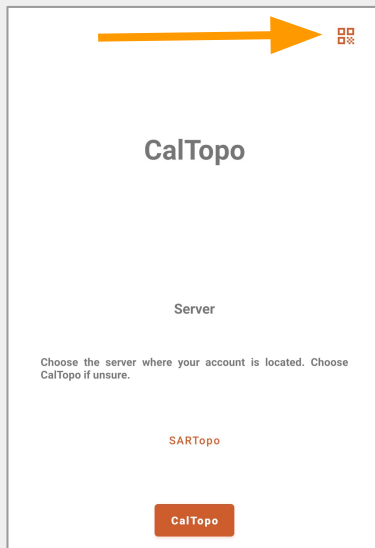

- Go to caltopo.com/app, or
- ← Scan the code here with your phone camera.

2. Join the “event” for this mission.

I've never seen or used CalTopo:

1. Click the QR code at the top right of the app.

2. Scan the EVENT QR code for this mission.
3. Follow on screen instructions to join the event.

Example Event
QR code.

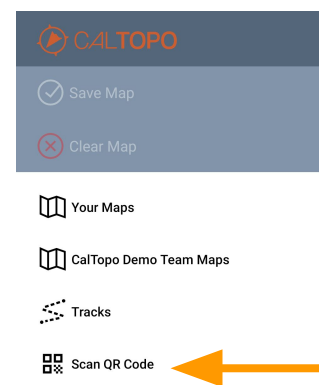

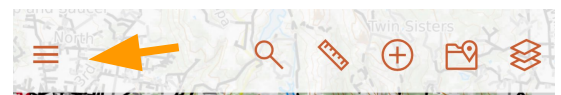

I have a CalTopo Account:

1. Login to SARTopo

2. Use the 3-bar menu and select “Scan QR code.”

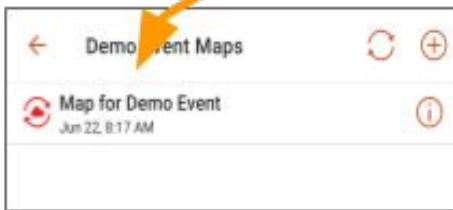

3. Scan the EVENT QR code and follow the on-screen instructions.

Open Mission Map

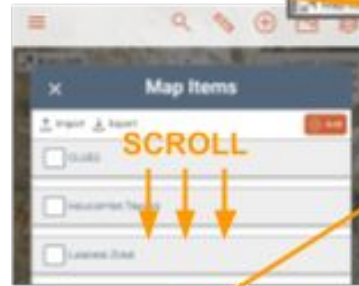

1. Tap 3-bar menu.

2. Tap event name to open map folder.

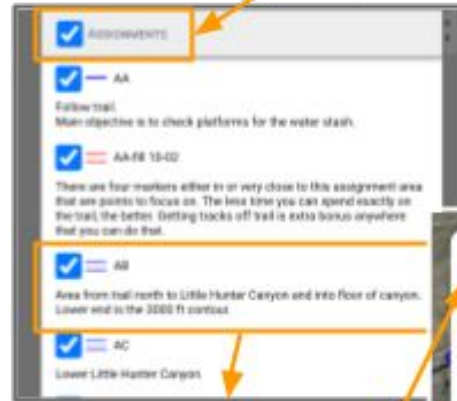

3. Tap on map name to open.

Find your assignment in the map objects folder.

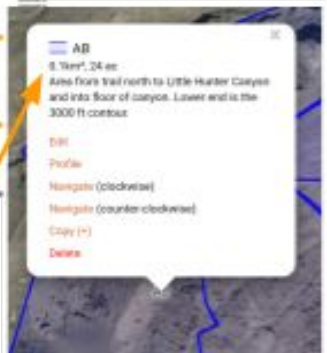

Scroll down the objects list until you find the Assignments Folder.

Then look for the name of your assignment in the list.

Tap the name of the assignment to center the map on it.

Download Base Layers to Use Offline

1. Tap to select tiles

2. Click to go to download screen

Purple dots show the outline of the map you were just viewing on the previous screen.

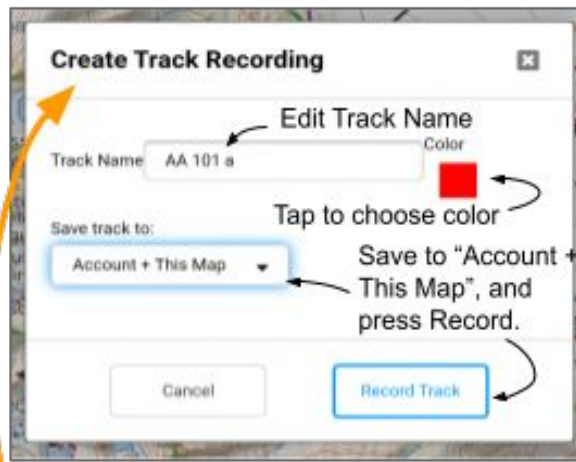

Unless instructed otherwise, only MapBuilder Topo at standard resolution is necessary.

Yellow-Highlighted tiles are selected for download.

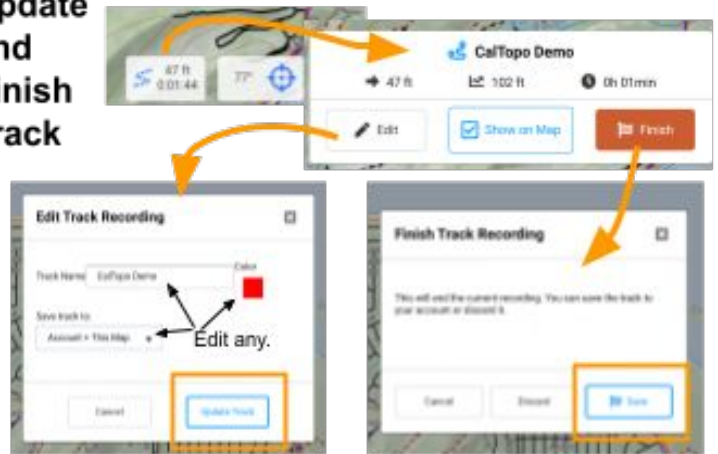

Blue and purple tiles are existing downloads.

Red tiles mean that layer is not available to download at that location.
