Join the CalTopo Event

CALTOPO

We are using the mapping app CalTopo to manage assignments and tracks for this incident
Follow the instructions below to access the event maps.

1. **Install the CalTopo Mobile app from the Play Store or App Store.**

Go to caltopo.com/app, or

Scan the QR code here.

2. Join the "event" for this incident.

I've never seen or used CalTopo before:

Choose crash data preference (1).
Click the QR code image to open the camera (2).

Scan the Event QR code.
Follow on screen instructions to join.

I have a CalTopo Account:

1. Login if necessary

Log In

2. Click the 3-bar menu, then select "scan QR code."
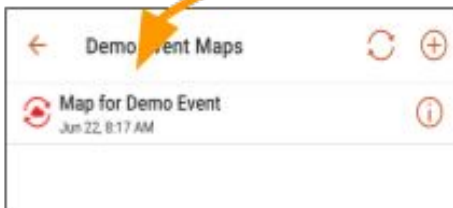

Scan QR Code

3. Scan the event QR code and follow on screen instructions.

Open Mission Map

1. Tap 3-bar menu.

2. Tap event name to open map folder.

3. Tap on map name to open.

## Find your assignment in the map objects folder.

Scroll down the objects list until you find the Assignments Folder.

Then look for the name of your assignment in the list.

Tap the name of the assignment to center the map on it.

Map Items
- Import ▲ Export
- ☐ Clues
- ☐ Helicopter Track
- ☐ Leeward Zone

SCROLL

- ☑ ASSIGNMENTS
- ☑ — AA
  - Follow trail.
  - Main objective is to check platforms for the water stash.
- ☑ ▭ AA-R8 10-02
  - There are four markers either in or very close to this assignment area that are points to focus on. The less time you can spend exactly on the trail, the better. Getting tracks off trail is extra bonus anywhere that you can do that.
- ☑ ▭ AB
  - Area from trail north to Little Hunter Canyon and into floor of canyon. Lower end is the 3000 ft contour.
- ☑ ▭ AC
  - Lower Little Hunter Canyon.

▭ AB ✕
0.1km², 24 ac
Area from trail north to Little Hunter Canyon and into floor of canyon. Lower end is the 3000 ft contour.

Unless instructed otherwise, only MapBuilder Topo at standard resolution is necessary.
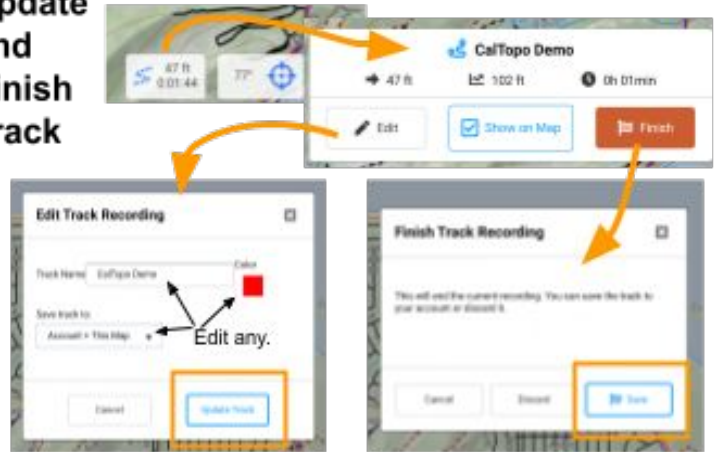

Yellow-Highlighted tiles are selected for download.

Blue and purple tiles are existing downloads.

Red tiles mean that layer is not available to download at that location.

Record a Track

Click the 4-dot menu, then select "Record Track."

Create Track Recording ⊠
